DETAILED ACTION

Election/Restrictions

1. Claims 2, 3, 5, 6, 9-11 and 14 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 29 November 2006.
2. Applicant's election without traverse of the species of Figs. 1-7, claims 1, 4, 7, 8, 12 and 13 in the reply filed on 29 November 2006 is acknowledged.

Drawings

3. The drawings are objected to because in Fig. 5, it appears numeral **30** should be --310--. Present drawing Fig. 5 does not clearly cross out numeral **30**.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering

Art Unit: 1744

of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

4. The disclosure is objected to because of the following informalities:
On p. 8, line 8, it appears "opening 122" should read --opening 112--.
Appropriate correction is required.

Claim Objections

5. Claims 1, 4 and 12-14 are objected to because of the following informalities:
Claim 1, section c., line 6, the recitation "to the one" makes the claim language awkward and unclear.
Claim 1, section g., line 2, after "of", insert --said--.
Claim 4, section c., line 6, the recitation "to the one" makes the claim language awkward and unclear.
Claim 4, section g., line 2, after "of", insert --said--.
Claim 12, section i., line 2, change "in" to --pin--.
Claim 13, line 2, "said actuation means" lacks proper antecedent basis.

Art Unit: 1744

Claim 14 (although withdrawn), line 2, "said actuation means" lacks proper antecedent basis.

Appropriate correction is required.

Allowable Subject Matter

6. Claims 1, 4, 12 and 13 are all allowable pending clarification of the claim objections set forth above

Claims 7 and 8 are allowable.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Marston and Tsui are relevant to typical mop roller configurations.
